

COMPANY SECURITY POLICY 2024

Zero Trust Architecture Implementation

Effective Date: January 1, 2024

Valid Through: December 31, 2025

POLICY CHANGE NOTICE

VPN requirement has been REMOVED. New zero-trust authentication system is now in effect.

NEW ACCESS MODEL

1. No VPN Required

- Direct cloud access enabled
- Identity-based authentication
- Continuous verification

2. Hardware Token Authentication

- All employees receive YubiKey hardware token
- Token required for all system access
- Biometric backup available

3. Access Procedure

- Navigate to portal.company.com
- Insert hardware token
- Enter PIN or use fingerprint
- System grants contextual access

4. Benefits

- Faster connection (no VPN overhead)
- Better security (zero trust model)
- Seamless user experience
- Multi-device support

MIGRATION TIMELINE

- Jan 2024: Pilot group
- Feb 2024: Full rollout
- March 2024: VPN systems decommissioned
