

COMPANY SECURITY POLICY 2022

VPN Access Requirements

Effective Date: January 1, 2022

Valid Through: December 31, 2023

OVERVIEW

All employees accessing company resources remotely must use the company-provided VPN solution.

REQUIREMENTS

1. VPN Connection Mandatory

- All remote connections require VPN
- No exceptions for any employee level
- VPN must be active before accessing any internal systems

2. Approved VPN Clients

- Cisco AnyConnect (Primary)
- Pulse Secure (Backup)
- Install only company-approved versions

3. Connection Procedures

- Launch VPN client
- Enter company credentials
- Enable two-factor authentication
- Verify green "Connected" status

4. Security Requirements

- Keep VPN client updated
- Never share VPN credentials
- Disconnect when not in use
- Report connection issues immediately

COMPLIANCE

Failure to comply may result in access suspension and disciplinary action.
